TECH STACK

JavaScript Ecosystem

JavaScript, Next.js, TypeScript, Astro.js, React.js, Gatsby.js, Node.js, GraphQL, Vite, Leaflet, Webpack, Express

CSS

SCSS/SASS, Tailwind

PHP/CMS

PHP, Laravel, MySQL, Shopify

Backend

Java, Spring, AWS, Maven, GCP, Docker, MongoDB

Analytics

Hotjar, Snowplow, Growthbook, SiteSpect

Tools

Figma, Cursor, GitHub, ChatGPT, JIRA, Claude, IntelliJ, Perplexity, VSCode, Gemini, Miro, Teams

Languages

English, German, Hungarian

PROFILE

Full stack developer with 5 years experience in frontend focused roles. Committed to take ownership. Skilled in collaborating on big scale projects.

EXPERIENCE

Idealo - Frontend Engineer 04.2021 - 07.2025

- Developed and owned the frontend of the feature "local offers", in a high-load, customer-facing application, that is comparing prices of product in the german market
- Scaled it from experiment to core product with an average yearly growth rate on our main KPI (clicks that leads to shop page) of 54%
- Tech stack: Java Spring Boot services generating offer lists, embedded TypeScript micro frontends built with Astro.js and React, all deployed on AWS (EKS, containerized microservices, managed databases, and supporting infrastructure)
- Implemented Snowplow tracking and ran A/B tests using GrowthBook to optimize features, previously using SiteSpect for experimentation
- Managed CI/CD pipelines, AWS infrastructure and infrastructure as code for multiple applications
- Mentored junior developers, performed technical interviews for job candidates and collaborated cross functionally with UX, data science, and sales colleagues

Miles - Web Developer 06.2020 - 12.2020

- Planned, developed, and deployed a new official website for Miles Mobility, a prominent carsharing company in Germany
- Analyzed user behavior using Hotjar (now Contentsquare), leveraging heatmaps and session recordings to optimize user flows
- Built a headless CMS using Contentful and Gatsby.js, unlocking interactive frontend capabilities with JavaScript and faster marketing content updates
- Participated in marketing meetings and provided technical insights

Education

Beuth Hochschule Berlin

Bachelor of Computer Science, 2017
