Recent work experiences

Idealo - Frontend Engineer 04.2021 - 07.2025

- Developed and enhanced the "local offers" feature, integrating it into Idealo's core price comparison application
- Created a map based interface with location detection to display offers around the users' location
- Managed CI/CD pipelines and AWS infrastructure for multiple applications supporting local offers systems
- Mentored junior developers and collaborated cross functionally with UX, data science, and sales teams to deliver product requirements

Miles - Web Developer 06.2020 - 12.2020

- Planning, development, and deployment of a new website for Miles Mobility, a prominent carsharing company in Germany
- Analysing and comparing technologies for future website development
- Built a headless CMS using Contentful and Gatsby.js, enabling dynamic features and faster marketing content updates
- Participate in marketing meetings and provide technical insights

Plunet - Software Tester 09.2015 - 06.2020

- Conducted testing of the translation management tool of Plunet to ensure functionality, performance, and user experience
- Developed and maintained test plans and test cases to validate software functionality

Freelance Web Developer 10.2014 - 06.2020

- Developed and maintained websites for clients using WordPress, HTML, CSS, and JavaScript
- Implemented responsive design and SEO best practices to improve website performance and user experience

Education

Beuth Hochschule Berlin
Bachelor of Computer Science, 2017
